### HOW TO REPLY TO THIS NOTICE:

#### I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status is changed, pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above and notify the United States Patent and Trademark Office of the change in status, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check the box below and enclose the PUBLICATION FEE and 1/2 the ISSUE FEE shown above.

☐ Applicant claims SMALL ENTITY status.  
See 37 CFR 1.27.

II. PART B - FEE(S) TRANSMITTAL should be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). Even if the fee(s) have already been paid, Part B - Fee(s) Transmittal should be completed and returned. If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 9 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 9 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### **DETAILED ACTION**

Applicants' amendment dated, 11/19/03, has overcome the 112 rejection stated in the last office action dated, 7/22/03.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Clint Gerdine on 2/11/04.

The application has been amended as follows:

In claim 11, line 12, after the words, "front and rear faces" insert — said slug being formed of a first material having a first thermionic work function, and said collar being formed of a second material having a second thermionic work function greater than said first work function. —

In claim 19, line 7, after the words, "the collar piece, the slug piece", and before the words, "providing respective central", insert – being formed of a first material having a first thermionic work function, --. In addition, change the word "providing" in claim 19 line 7 to the word "provides". I

In claim 19 line 9 after the words, "collar piece" and before the word "providing" insert – being formed of a second material having a second thermionic work function greater than said first work function, --. In addition, change the word "providing" in claim 19 line 9 to the word "provides".

In claim 24, line 6, after the words, "collar piece, the slug piece" and before the words "providing respective central portions" insert – being formed of a first material having a first thermionic work function --. In addition, change the word "providing" in claim 24 line 6 to the word "provides".

In claim 24 line 7, after the words, "and the collar piece" and before the word "providing" insert --being formed of a second material having a second thermionic work function greater than said first work function, --. In addition, change the word "providing" in claim 24 line 7 to the word "provides".

In claim 25, line 8, after the words, "so that the slug piece" and before the words "provides respective central" insert – being formed of a first material having a first thermionic work function, --.

In claim 25, line 9, after the words, "rear faces and the collar piece" and before the word "provides" insert – being formed of a second material having a second thermionic work function greater than said first work function, --.

In claim 26, line 9, after the words, "said front face for emitting being concave," insert – said button cathode including a collar and a slug, the slug being secured in the collar, said slug being made of a first material having a first thermionic work function,

Art Unit: 2881

and said collar being formed of a second material having a second thermionic work function greater than said first work function, --.

***Allowable Subject Matter***

Claims 1,2,5-8,10,11,13,14 and 17-26 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose nor teach an indirectly heated button cathode for an ion source, comprising a button member including a collar and a slug secured in the collar wherein the slug is made of a first material having a first work function, and the collar is made of a second material having a second thermionic work function greater than the first work function, in combination with the rest of the claims. Since this aspect is each of the independent claims 1,11,14,17,19,24-26, independent claims 1,11,14,17,19, and 24-26 are deemed allowable over the prior art of record. In addition, dependent claims 5-8,10,13,18,20-23, which also incorporate this aspect, are also deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Quash whose telephone number is (571)-272-2480. The examiner can normally be reached on Monday thru Friday 9 a.m. to 5 p.m..
